i didn't think you'd understand me
how could you be so big
i don't want to be this
i don't want love
and i don't want to lead this
wonderfully free
just want to let this story die
and it is dying

we can't be friends
and let me just pretend
you're close to your phone and pass
that note you left me open
wait for your love
love

lyrics: ariana grande

many of my clothes in the closet you made
myself, guess it's in yours i
found them under your
wearing his things, you no real man
i exchange my underwear i try to make our life

but the weather how i try to
and no weather
and no weather, how these things could be it i did
and no weather how i try i still feel saying it
i wish i hated you
i wish that i could turn
when there was love to you
i wish you were worse to me
you i wish i hated you

never making a chance on a parallel plane
never two different endings
you learn to know
that I want to be near you in one place
so close and yet so far is only we need
know from the start

but no matter how I try to
and no matter how I wish to
and no matter how easy things could be if I did
I wish I hated you
I wish that weren't true
I wish there was worse to you
I wish you were worse to me
yet I can't hate you

I'm lonely
Gimme take my hand
Share your shelter and your clothes in the back seat
I'm lost
I need what you've planned
I'll find your heart in the box here inside me

hey and how low
and marriage at the expense until
he crossed and he burned
now I just can't go where you don't go

and usually i'm
fucked up
usually i'm
fucked up

you said usually i'm
fucked up
usually
too much
don't let love
get like you need
me to
usually i'm
fucked up

always
 the reason
 that I love
 you the way need
 the to
 imperfect for you
 missing
 completely
 understood
 but I'm not like that since I
 I want you
 imperfect for you
 let's go tonight
 cause there's just a few
 seconds left to tomorrow
 we have
 all that we need
 let's leave all our baggage and wine at the table
 how could we know
 that this was a happy disaster when
 that we've crushed love beyond
 it's impossible to repair what we
 I'll never see you again

you said usually i'm
fucked up
anxious
too much
but i'll love
you like you need
me to
imperfect for you

messy
completely
disgusted
but i'm not
i need you
imperfect for you

how could we know
you're into the bad stuff delighted
i said we crashed and we burned
i know we'll be there for each other
when we're feeling

fucked up
anxiety
too much
but i'll love
you like you need
me to
imperfect for you

we could go for it the change in California
we could have initiative in there if you wanted
hybridizing the
could
of anything
that we
we could just get it done in Washington States
we could carry it all the Labor of night if you
we could spend every day
but I don't
of anything
but alone time
no matter what we do
there's never gonna be an
ending it's
no grinding things with you
it's doing but it's free
there's never gonna be an
ending thing
as long as I'm with you

you're just like the first sip of wine after a long day
you're not the big good man when i hear what the Critiques
say
you're just like a green light when i sit stuck, read late
don't need no diamonds
just your time
no matter what we do
there's never gonna be an
ordinary thing
no ordinary words with you
it's funny, but it's true
there's never gonna be an
ordinary thing
as long as i sit with you

"When he'd come home and I'd see him, when he first gets off that train, it was like God suddenly arrived. It was like seeing daylight. I wasn't a culture freak and left a million times. I just thought we never 'figured' you can overcome that, you know? It's very easy, and as I told her, never go to bed without 'kissin' goodnight'. That's the worst thing to do, don't ever ever do that... if you can't, and if you don't feel comfortable doing it... wake up in the wrong place, get out." - Norma
